

# Powerful, Real-Time Sensor Monitoring: Easy as A B C

## A Understand Urgent Need

- 1) **Know operational requirements:**  
security surveillance; information assurance; human, equipment, or environmental health monitoring.
- 2) **Know sensor capabilities:**  
video, mechanical, chemical, radar, sonar, magnetometer, ...
- 3) **“Dollarize” success metrics:**
  - Increased precision value
  - Reduced development cost
  - Faster deployment value
  - Reduced operating cost

## B Tune Brainlike Engine

Sensor  
Tuning  
Data

Brainlike  
Studio™  
Tuning

Tuned  
Brainlike  
Processor™

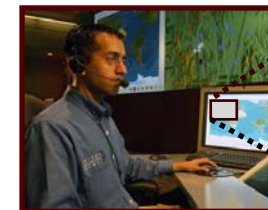

**Brainlike  
technology: a robust  
monitoring process that  
continuously learns  
from changing  
data!**

## C Integrate Brainlike Process

Sensor  
Stream  
Data  
(e.g. video)

Tuned  
Brainlike  
Processor™

**Useful Information ( e.g., wake)**

**Brainlike  
processing reduces real-time  
sensor data to useful  
information!**
